

Anthony Streett

3529 Red Pontiac Drive
(302)-772-8946
arjstreett@gmail.com

A hard worker, detail oriented, and I'm passionate about everything I do not just coding. What I mean by that is I put my all into everything because I don't like to settle for less. You only get what you give, and at this moment I'm giving my all to become one of the best Software Engineers in the world.

Work Experience

Technician / Data Analyst

09/2018 to 05/2019

Bloom Energy
Newark, DE

- Ran functionality tests for the operating systems that resided in Bloom's alternative energy source.
- Conducted wire audits to make sure all the wires in the system provided proper electric currents.
- Collected all parts used, and errors made into a Microsoft Excel sheet daily.

Software Engineer Lead

02/2020 to 05/2020

Lambda School
Silicon Valley, CA

- Orchestrated team meetings that consisted of daily goals, bug fixes and helped with final products testing and integrations.
- Marked up daily reports to my section leads and made sure all pull requests were merged with no conflicts.
- Demonstrated all project capabilities and functionality, explaining the logic and frameworks used.

Septic Cleaner / Front End Developer

12/2012 to 02/2018

Streett & Sons Septic
Lewes, DE

- Treated and cleaned customers septic systems.
- Took majority of morning calls and did emergency runs on weekends, and holidays.
- Handled all company cash and filed it to my boss Tony Streett, and made sure the truck was cleaned every 2 weeks.
